🧰 Professional Experience

Junior Frontend React JS Developer, Speedwapp

October 2022 – present

At Speedwapp, I work on a real world project full of challenges everyday as it is a website builder built with JavaScript.

I improve my problem solving skills and debugging skills as well as my communication and team working skills. During my journey at Speedwapp, I have:

- Collaborate on working and fixing bugs on the Speedwapp VsCode extension
- Learn how to develop a Wordpress plugin
- Designed and created fully functional and working Wordpress websites
- Learned backbone Js
- Created multiple React components in the builder
- Created rest endpoints with php and symphony

Wordpress Developer / Freelance,

Kyafrican Hair Braiding

2023 | United State

Designed and developed a dynamic wordpress website that effectively conveys information and meet client's requirements. Incorporated responsiveness and SEO optimization to enhance online presence.

📁 Projects

Task management & Note taking Rest Api

2023

Created a robust and efficient Task management and note taking REST API with Spring boot demonstrating strong programming and problem skills.

Edu Exchange

2023

Collaborated with peers to develop a full-stack web application following agile methodologies to address requirements challenges, technical complexities, and tight deadlines. Technologies utilized included Next.js for the frontend and Java Spring Boot for the REST API.

Accomplishments in this role include:

- Successfully constructed the frontend using Next.js.
- Used Shadcn and Tailwind CSS to create an aesthetically pleasing user interface.
- Integrated TinyMCE for content editing functionality.
- Established real-time chat capabilities by integrating WebSockets.
- Designed the Entity-Relationship (ER) diagram to enhance data modeling.
- Implemented authentication using Spring Security and JWT for enhanced security measures.
